There was about the usual supply of attle on the market yesterday. The market was draggy, but when sales were made they were at prices about steady. The cattle were all sold and about the only difference was that sellers had to work a little harder to effect sales.

STOCKS AND BONDS.

New York, Feb. 36.-The undertone of the stock market continued depdessed today, although the movement of prices was feverish and irregular throughout. There was quite a general show of strength at the opening and individual points of strength at different times afterward, but nething in the way of gains was left at the close which was dull and

The market here was lower, as were other western markets. The best hogs sold five cents lower than the previous day, while some of the common light hogs suffered ten cents decline. Cudahy and Dold laid in their regular orders and all the hogs were sold when the market closed. The commission menfought hard for better prices and it is probable that the buyers did not get their hogs quite as cheap as they expected Hog Sales.

150 \$2.56 with very large customs collections, brought the loss of the market to the government institution for the day, up to \$2.212.000, making the aggregate loss since Friday on that account \$3.329.000, here is some talk that this heavy drain upon cash resources will be of a large contraction in the banks by a transfer to lenders. As a matter of feet loss bills be of the public lenders. 2.55; lemens, box, \$2.75(2.00); Wisconsing cabbage, per 100 lbs. \$1.56; bananas, per pound. \$2.50(2.00); cambetries, per burches. \$6.00(2.00); comb honey, per lb. 160; strained honey, per lb due to an inkling of this news.

The lack of confirmation of yesterday's rumors regarding Wabash and St. Louis

and San Francisco as to possible deals connecting those railroads with other large systems naturally led to realizing. The advance in Rock Island had the appearance of an effort to revive the influence of the rumors. The special pressurants against Metropolitan Street Railway was also regarded as rather ominous. The also regarded as rather ominous. The rise in St. Paul was due to the possibility that the directors at tomorrow's meeting may take action on the proposed new stock issue. Amalgamated Copper felt the benefit of an advance in the selling price to Europe of the metal. Laclede Gas and North American reflected the report of the purchase of the former by the latter. The buying of sugar was attributed to favorable trade reports. The loud market was quite irond but the benefit of an advance in the selling portion to Europe of the metal. Laclede lass and North American reflected the report of the purchase of the former op the latter. The buying of sugar was attributed to favorable trade reports.

The bond market was quite broad, but a 19.72,89.75.

Estimated receipts tomorrow. When the comparison of the comparison of the superscripts tomorrow.

WERE QUIET

May Wheat Unchanged and May Corn Was Higher.

PROVISIONS WERE STRONG

Low Cables and Favorable Weather Brought Out Sellers.

Chicago, Feb. 25.-Trading in the grain pits was rather quiet today and after an easier opening the close was firm. May wheat being unchanged, May corb 10%c higher and oats up 16%c. Provisions ruled strong, the May products closing 587% to 17% higher.

Lower cables and favorable weather brought out considerable selling in the wheat pit at the start and a good many wheat pit at the start and a good many longs sold out, while commission houses had sales for short accounts. May opened this lower, at 165 giffe, but soon advanced on a good demand from commission houses, said to acting for St. Louis people, selling up to Tisc. A little weakness in other register. tle weakness in other grains caused som selling by locals and a reaction to 75 followed. The light offerings late in the may was the main cause for the fairly firm feeling which pervaded the pit at the close and final figures on May were unchanged, at 77,60774c. Bradstreet's report of the world's visible supply was a bearish influence, and claimed the world's stock had increased 1,3000,000 bushels last week, compared with a de-crease a year ago of 2.641.000 bushels. Clearances of wheat and flour were equal to 124,000 bushels. Primary receipts were 522,000 bushels, against 573,000 bushels a year ago. Minneapolis and Duluth re-ported receipts of 220 cars, which, with local receipts of 25 cars—none of contract grade—made total receipts for the three points of 24 cars, against 216 cars last

week and 562 cars a year ago. Corn met an active demand from pro-vision people and following a slight dip at the outset the market turned strong. The early weakness was on lower crobles and in sympathy with the decline in wheat. Commission houses were the best wheat. Commission houses were the best buyers and there was no pressure to sell, the limited offerings being quickly absorbed. Unsettued weather was a built factor, as was the poor grading. The close was strong and 18% higher, at 48% 48% for May, which ranged between 48% and 48%. Local receipts were 68% cars, with none of contract grade. The early weakness in corn and wheat affected outs and there was heavy selling by commission houses. Later, on

the advance in other grains, the market became firmer, which feeling was helped materially by the small receipts. The close was strong with May taffac higher at 354c, after selling between 245c and 259354c. Local receipts were 184 cars. Provisions opened steady, in the fact of lower prices for hogs at the yards, a fair demand from brokers being the sup-

ing by commission houses. Later, on

the price movement was irregular. Total sales, par value, \$2,450,000. United States bonds were all unchanged on the last hogs, \$3,000 head.

Will write a series of articles on the political situation at Washington as he sees it from week to week. Exclusively in

William Allen White

There are perhaps three or four men in the length and breadth of the country who can write on political topics as sanely, shrewdly and clearly as Mr. White; but not

one of them possesses in like degree his fine native humor or his ability to wring the last drop of human interest out of his subject and into his writing. Mr. White has also the rare gift for stripping a complex theme of its non-essentials and showing it forth in its simplest terms.

How the Cabinet Does Business By Charles Emory Smith

Former Postmaster-General. A very general ignorance of the inner workings of the Cabinet room prevails, and yet the Cabinet is the least formal, the most active, of the arms of the Government. Mr. Smith will illustrate with anecdotes of actual occurrence how the assembly handles grave questions.

A Congressman's Wife

A regular letter from one of the brightest women in Washington, giving us all the social gossip of the Capital, telling us the good things said at the social functions; bright, sparkling, full of life-the social life of Washington.

The Saturday Evening Post will be sent to any address every week from now to July 1st, 1903, on trial, on receipt of only 50 cents.

It is the handsomest weekly magazine you ever sau
